ARENA SCHOOL | A MEMBER OF ANTHROP\C OpenAI

FOR TEACHERS AND SCHOOL LEADERS

Hands-on AI training where each teacher *builds a tool for their class.*

Each teacher brings one task from a class they teach now and leaves with a working tool, on your approved systems.

Demo day at the International School of Beijing, 2026

01 | Why now

53%

of English, math, and science teachers said they used AI for school in 2025, up more than 15 points in one to two years.

02 | One session, one working tool

Then every teacher moves up one level a term.

HOW A SESSION RUNS

1. **Before** — Each teacher brings one task from a class they teach now.
2. **Show** — We make one tool live from a plain-language description.
3. **Make** — Each teacher makes theirs on your approved tools and checks every result.
4. **Keep** — Teachers keep the tool and the prompt, to reuse and share.

FIVE LEVELS OF AI FLUENCY

1. Unaware
2. Curious
3. Practitioner
4. Designer
5. Builder

PROGRAMS RUN AT

Tsinghua University · Schwarzman Scholars · International School of Beijing

03 | Student data comes first

Before which tool, ask whose account it is.

Personal account

- ✗ Consumer terms
- ✗ No data agreement
- ✗ Not for student data

School-approved platform

- ✓ Enterprise agreement
- ✓ Agreed by the school
- ✓ Cleared for student data

- Inside your approved platforms
- No student data in personal accounts
- Sample data for practice

COACHED BY A TEAM FROM

Caltech · Harvard · Brown · Tsinghua University · International School of Beijing · McKinsey&Company · Goldman Sachs · Y Combinator · Microsoft AI · Deloitte. · KIMI

Bring Arena to your school.

Planned with your team, run on your campus. Your teachers keep the materials.
