A MEMBER OF ANTHROPIC Startup Program · OpenAI Partner Network

OUR TEAM STUDIED AT Caltech · Harvard · Brown · Tsinghua University · International School of Beijing

OUR TEAM WORKED AT McKinsey&Company · Goldman Sachs · Y Combinator · Apple · Microsoft AI · Deloitte. · KIMI

01 Who we work with, and where we've run it

Teachers

Make the tool your class is missing.

Session · workshop · school-wide

Staff training, Schwarzman College

Technology teams

Training on your approved systems.

Planning · sessions

School leaders

Programs for the whole school community.

Planned with your team

Student program on campus

Conferences

Talks and hands-on workshops.

Keynote · workshop · panel

ACAMIS

Next: ACAMIS workshop

02 Staff AI fluency

Five levels; every teacher moves up one a term

1 **Unaware** — Hasn't used AI, or avoids it.

2 **Curious** — Tries chat tools now and then.

3 **Practitioner** — Uses approved tools weekly for planning, feedback, and admin.

4 **Designer** — Builds AI into lessons, and teaches students to use it responsibly.

5 **Builder** — Creates tools for colleagues, and leads others.

Baseline
A short self-assessment places every teacher.

One level up
Each group trains up one level.

Each term
Re-measure, so leaders see the curve shift.

Coaches
Level 5 teachers coach colleagues.

03 How a teacher moves up one level

01 Before

Each teacher brings one task from a class they teach now.

02 Show

We make one tool live from a plain-language description.

03 Make

Each teacher makes theirs on your approved tools and checks every result.

04 Keep

Teachers keep the tool and the prompt, to reuse and share.

04 Learning outcomes

Inquiry and planning

Turn an interest into a focused question, and plan the work.

Research and evaluation

Check sources, including AI output, and choose on evidence.

Creating and communicating

Build and test it with AI, and explain it clearly.

Collaboration and reflection

Use critique from teachers and peers to revise the work.

05 Student data guardrails

WHOSE ACCOUNT IS IT?

Personal account
- ✕ Consumer terms
- ✕ No data agreement
- ✕ Not for student data

School-approved platform
- ✓ Enterprise agreement
- ✓ Agreed by the school
- ✓ Approved for student data

Inside your approved platforms
We work only in the accounts and tools your school approves, and agree the data rules with your team before any session.

No student data in personal accounts
Student names, work, and records never go into a personal or consumer account.

Sample data for practice
Teacher sessions use teachers' own materials or anonymized sample data, not student records.

Bring Arena to your school.

Planned with your team, run on your campus. Your teachers keep the materials.
