## 01 Five levels of AI fluency

Every teacher moves up one level a term.

| 1 Unaware | 2 Curious | 3 Practitioner | 4 Designer | 5 Builder |
|---|---|---|---|---|
| Hasn't used AI, or avoids it. | Tries chat tools now and then. | Uses approved tools weekly for planning, feedback, and admin. | Builds AI into lessons, and teaches students to use it responsibly. | Creates tools for colleagues, and leads others. |

**Baseline**
A short self-assessment places every teacher.

**One level up**
Each group trains up one level.

**Each term**
Re-measure, so leaders see the curve shift.

**Coaches**
Level 5 teachers coach colleagues.

## 02 Moving up a level

One session, one task from a real class.

### 1 Before

Each teacher brings one task from a class they teach now.

### 2 Show

We make one tool live from a plain-language description.

### 3 Make

Each teacher makes theirs on your approved tools and checks every result.

### 4 Keep

Teachers keep the tool and the prompt, to reuse and share.

## 03 Student data comes first

Before which tool, ask whose account it is.

**Personal account**

- ✕ Consumer terms
- ✕ No data agreement
- ✕ Not for student data

**School-approved platform**

- ✓ Enterprise agreement
- ✓ Agreed by the school
- ✓ Cleared for student data

- **Inside your approved platforms**
- **No student data in personal accounts**
- **Sample data for practice**
- **Teachers learn to check the terms**
