ARENA SCHOOL | A MEMBER OF ANTHROP\C Startup Program OpenAI Partner Network

2026–27 SCHOOL YEAR

# Proposed [Write: what, e.g. AI sessions] for Client School [Write: program, italic accent]

[Write: one sentence: the format (when, where, how long) and the outcome for students]

PREPARED FOR

[Add Client School logo: rerun with a logo file, or put it in print-kit/site/logos/clients/]

PREPARED BY

ARENA SCHOOL

arenaschool.org

DATE

November 2, 2026

## Summary

[Write: 3 to 4 sentences: what the client program asks of students, the constraint that matters, what we propose, and the outcome. No fee number on the cover.]

# 01 About Arena School

Hands-on programs for students, educators, and families.

Arena School runs hands-on programs where students build real products with AI tools and learn the judgment those tools cannot supply: **agency**, choosing what is worth solving; **taste**, telling which version works; and **craft**, finishing it well. Based in Beijing, we often work on schools' own campuses, with the AI tools each school approves. Programs, results, and our team are at arenaschool.org.

## Our core format: the five-day intensive

Student teams choose a problem worth solving, build a working product with AI tools, and defend it before a panel. One decision a day, and each day ends with something students can show. No coding experience is needed.

1
**Choose a problem**
Teams form around problems pitched in three minutes.

2
**Talk to users**
Interviews with the people they want to help.

3
**Live at a link**
A working version anyone can open.

4
**Brand and price**
Name, price, and a fixed hour when building stops.

5
**Demo day**
Teams pitch to a panel of founders.

## Seasonal programs: summer and winter

| PROGRAM | FORMAT | WHEN AND WHERE |
|---|---|---|
| **Five-day student course**<br>Taught by Phillip An for Bodley Academy | Twenty students, each on one real problem they chose. 9.5/10 Net Promoter Score. | Summer 2025<br>Hong Kong |
| **Entrepreneurship & AI Intensive**<br>International School of Beijing | Five-day cohort, grades 7 to 12. Students built working websites and apps and presented to judges: founders and operators from Harvard, Stanford, Y Combinator, and AI labs. | Summer 2026<br>Beijing |
| **AI Advantage Bootcamp**<br>Jointly hosted with Lux Scholar | Seven days for college students, master's students, and early-career professionals to launch a live product. | Dec 27, 2026, to Jan 2, 2027<br>Guangzhou |
| **AI Fundamentals for Students**<br>International School of Beijing | Four days at the end of winter break: students learn AI tools and turn an idea into a real product. | Jan 5 to 8, 2027<br>Beijing |

## Also during the school year

STUDENTS
### Year-Long Project Mentorship
One project each student chooses, with 1:1 mentorship to build it, grow it, and show it.

EDUCATORS
### AI for Educators
Hands-on sessions where teachers build AI tools for their own classes. Staff training at Schwarzman College, Tsinghua.

FAMILIES AND CONFERENCES
### Talks and workshops
Parent talks on AI, work, and college, and teacher workshops, including EARCOS in Bangkok, March 2027.

## Who would work with your students

### Jing Jing Yang

**Co-founder · Brown · Tsinghua · Schwarzman Scholars**

Grew up in international schools in Beijing: the Western Academy of Beijing and the International School of Beijing. Studied Economics and Behavioral Decision Sciences at Brown, researched with Microsoft AI as a Schwarzman Scholar at Tsinghua, and worked on the international growth team at Kimi (Moonshot AI). Previously Apple and Deloitte.

### Phillip An

**Co-founder · Caltech · Harvard · Tsinghua · Schwarzman Scholars**

Studied Computer Science at Caltech, worked at McKinsey and Goldman Sachs, and earned an MBA and a master's in engineering from Harvard. Co-founded Homebase, the first company from Vietnam backed by Y Combinator, and was named to Forbes 30 Under 30. Leads Arena's program design with Jing Jing.

TAUGHT AT — International School of Beijing · Bodley Academy · Tsinghua University · Schwarzman Scholars

TEAM FROM — Caltech · Harvard · Brown · McKinsey&Company · Goldman Sachs · Y Combinator · Apple · Kimi

## What students have built

Three recent projects. Students chose each problem themselves and built the product with AI tools.

GAMES

**Five games, built to publish on Steam**

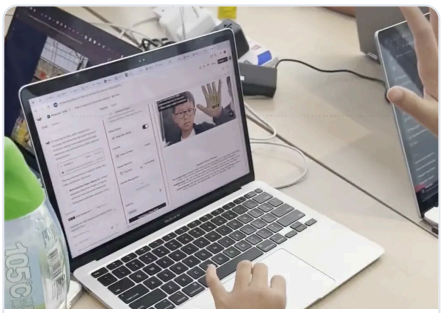

International School of Beijing, 2026

PRODUCTIVITY

**A tool that tracks progress, sleep, and work**

International School of Beijing, 2026

ACCESSIBILITY

**A sign-language-to-speech app, built by a ten-year-old**

Testing the app, Hong Kong, 2025

## Why this matters now

**54%**

of U.S. students said they used AI for school in 2025, up more than 15 points in one to two years.

**80%+**

said their teachers did not explicitly teach them how to use AI for schoolwork.

**1 in 2**

worry they will be falsely accused of using AI to cheat.

# Proposal for Client School

[Write: one-line dek: the touchpoints]

## What we understood

- [Write: the program, in neutral terms the client would use]
- [Write: who the students are: number, grades]
- [Write: starting point, e.g. AI experience]
- [Write: constraint, e.g. tools must work in China without a VPN]

## Objectives

1. [Write: short name]. [Write: one line]
2. [Write: short name]. [Write: one line]
3. [Write: short name]. [Write: one line]

## Part 1 · [Write: when] · [Write: format and length]

Session title: [Write: title, in the client's words if they gave one]

| TIME | SEGMENT | CONTENT |
|---|---|---|
| 0 to 10 min | [Write: segment] | [Write: content, then our angle as a plain sentence (no "Our addition" label)] |
| 10 to 20 min | [Write: segment] | [Write: content] |
| 20 to 30 min | [Write: segment] | [Write: content] |

## Part 2 · [Write: when] · [Write: format]

[Write: what this part adapts from our programs, and what we lead vs what stays with the client's staff]

FIRST, CONFIRMING [WRITE: THE OPEN QUESTION]

[Write: what we need to know before proposing a timed schedule; never lay out times before contact time is confirmed]

## What [Write: this part] would cover

DAY 1 FOCUS

### [Write: focus]

- [Write: item]
- [Write: item]
- [Write: item]

DAY 2 FOCUS

### [Write: focus]

- [Write: item]
- [Write: item]
- [Write: item]

WHILE WE ARE ON CAMPUS

[Write: optional, light: who we would welcome meeting (leadership, program planners); never a formal ask]

OUTCOMES

- [Write: outcome]
- [Write: outcome]
- [Write: outcome]

PROVIDED BY CLIENT SCHOOL

- Round-trip travel for [Write: number] facilitators
- Lodging and meals during the visit

## Looking ahead

If this first engagement is useful, we would be glad to discuss next steps with Client School, such as [Write: one or two natural follow-ons, e.g. a summer program or teacher sessions]. Each would be planned with Client School and quoted separately.

# 03 Fees, terms, and next steps

One package for [Write: both parts], well below our standard rates.

## How we normally charge

STUDENT PROGRAMS

### Priced per student

Our intensives and seasonal programs are priced per participating student; for a cohort of this size, that would come to considerably more than the package below.

SCHOOL ENGAGEMENTS

### RMB [day rate] per facilitator per day

Our standard rate for on-campus facilitation and custom sessions, including preparation. Travel, lodging, and meals are provided by the school.

## This proposal

| ITEM | BASIS | STANDARD | CLIENT SCHOOL PACKAGE |
|---|---|---|---|
| [Write: short session (under half a day)] [Write: what is included] | [Write: length, format] | – | Included |
| [Write: on-campus days] [Write: days, including preparation] | [Write: N facilitators × N days] | RMB [Write: facilitators × days × day rate] | Included |
| **Total** | | ~~RMB [Write: standard total]~~ | **RMB** [Write: package] |

The package is [Write: e.g. more than two-thirds] **below our standard day rates**, and far below our per-student pricing. We have priced it this way because this is our first engagement with Client School, and we would like it to be the start of a longer partnership.

## Terms

- The fee is quoted in RMB and covers [Write: both parts], including all preparation.
- Travel, lodging, and meals for [Write: number] facilitators are provided by Client School and are not part of the fee.
- Invoicing follows Client School's process.

## Next steps

1. **Client School review.** The program team reviews this proposal with school leadership.
2. **Confirm details.** [Write: what gets confirmed]
3. [Write: plan]. [Write: what we send once confirmed]

## Questions about this proposal?

We are glad to adjust the scope to fit the program's calendar.
