ARENA SCHOOL

WHAT IS ARENA SCHOOL

Hands-on programs that help students, families, educators, and schools *thrive in the age of AI.*

When AI can make almost anything, learners need to know what is worth making, whether it is good, and how to finish it. Every program builds three skills: **agency**, choosing what is worth solving; **taste**, telling which version actually works; and **craft**, finishing it well.

Presenting at demo day, Beijing 2026

A MEMBER OF ANTHROPIC Startup Program · OpenAI Partner Network

OUR TEAM STUDIED AT Caltech · Harvard · Brown · Tsinghua University · International School of Beijing

WORKED AT McKinsey&Company · Goldman Sachs · Y Combinator · Apple · Microsoft AI · Deloitte. · KIMI

PROGRAMS

For students

App Design Workshop
Grades 6 to 9 · 2 days

College Portfolio Workshop
Grades 10 to 12 · 2 days

Entrepreneurship & AI Intensive
Grades 7 to 12 · 5 days

Year-Long Project Mentorship
Grades 7 to 12 · 6 months to a year, 1:1

For teachers and schools

AI for Educators
Teachers make the tool their class is missing

Technology teams
Training inside your school's rules

School leaders
Arena for your whole school community

Conferences
Talks and hands-on workshops

For families

Year-Long Project Mentorship
Families enroll directly

Community Dialogues
Parent talks at your school

AI Fundamentals for Students @ International School of Beijing
Winter break, Jan 5 to 8, 2027

College and early career

AI Advantage Bootcamp
Seven days in Guangzhou, Dec 27, 2026 to Jan 2, 2027

LEARNING APPROACH

Learners decide. AI builds. *Real people judge.*

One framework runs every program. The learner sits at the center; four strands of work circle them: inquiry and planning, research and evaluation, creating and communicating, and collaboration and reflection.

AI FLUENCY FOR THE WHOLE STAFF

A few early adopters are there. We bring everyone else up.

1 Unaware · 2 Curious · 3 Practitioner · 4 Designer · 5 Builder

A baseline places every teacher on five levels; we train each group up one level and re-measure each term.

STUDENT DATA COMES FIRST

Before which tool, ask: whose account is it?

Inside your approved platforms. We work only in the accounts and tools your school approves, and agree the data rules with your team before any session.

No student data in personal accounts. Student names, work, and records never go into a personal or consumer account.

Sample data for practice. Teacher sessions use teachers' own materials or anonymized sample data, not student records.

AI use disclosed. Learners say which steps they handed to AI, and how they used it.

SELECTED PROGRAMS WE HAVE RUN

INTERNATIONAL SCHOOL OF BEIJING · SUMMER 2026

A five-day student program

Over five days, students built working websites and apps with AI and presented them to judges, on the school's campus with mentors in the room.

BODLEY ACADEMY · HONG KONG, SUMMER 2025

Twenty students, five days

A five-day course designed and taught by Phillip An. Each student worked on one real problem they chose.

TSINGHUA UNIVERSITY · STAFF TRAINING

Schwarzman College

Training for staff built around their own work, with their judgment in charge. The same format as AI for Educators.

Bring Arena to your school.

Programs for schools run on your campus, planned with your team around your calendar. Your teachers keep the materials.
