A MEMBER OF ANTHROP\C Startup Program · OpenAI Partner Network

OUR TEAM STUDIED AT Caltech · Harvard · Brown · Tsinghua University · International School of Beijing

OUR TEAM WORKED AT McKinsey&Company · Goldman Sachs · Y Combinator · Apple · Microsoft AI · Deloitte. · KIMI

01 What your child can do, and where we've run it

Hands-on workshops
Rebuild an app, or build a portfolio site.

At your child's school

Intensives
Teams launch a real product and pitch it.

With mentors in the room

International School of Beijing · Bodley Academy

Five-day student programs

Year-long mentorship
One project, 1:1, at their own pace.

Weekly check-ins, hybrid

International School of Beijing

ISB alumni continue here

Parent talks
How AI is changing work and college.

At your child's school

PTA

Parent talk, ISB PTA

02 Year-long mentorship: the milestone ladder

1. **Launch** — A working product at a public link
2. **Traction** — Users from outside their circle
3. **Revenue** — First income from paying users
4. **Impact** — Many users, press, or a final
5. **Recognition** — A national win, or a company

Each student sets a target with their mentor, then moves up at their own pace, judged on the work.

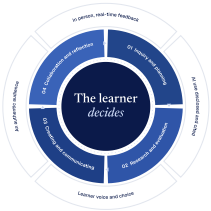

Weekly
25-minute check-ins, hybrid

Solo or a team
Up to four students

Start
Rolling

Length
Six months to a year

03 How your child learns

Learners decide. AI builds. Real people judge.

Agency
Choose what is worth doing.

Taste
Judge whether it is actually good.

Craft
Finish it so people can trust it.

FOUR STRANDS, ASSESSED ON EVERY PROJECT

Inquiry and planning
Turn an interest into a focused question, and plan the work.

Research and evaluation
Check sources, including AI output, and choose on evidence.

Creating and communicating
Build and test it with AI, and explain it clearly.

Collaboration and reflection
Use critique from teachers and peers to revise the work.

04 Safety and student data

WHOSE ACCOUNT IS IT?

Personal account
- ✕ Consumer terms
- ✕ No data agreement
- ✕ Not for student data

School-approved platform
- ✓ Enterprise agreement
- ✓ Agreed by the school
- ✓ Approved for student data

No student data in personal accounts
Student names, work, and records never go into a personal or consumer account.

AI use disclosed
Learners say which steps they handed to AI, and how they used it.

Inside your approved platforms
We work only in the accounts and tools your school approves, and agree the data rules with your team before any session.

Two ways to start.

Ask your child's school to bring Arena, or enroll in the Year-Long Project Mentorship directly.
