

Hands-on programs that help *students, families, educators, and schools* thrive in the age of AI.

When AI can make almost anything, students need to know what's worth making, whether it's good, and how to finish it. Every program builds three skills: *agency*, choosing what's worth solving; *taste*, telling which version actually works; and *craft*, finishing it well.

OUR TEAM COMES FROM

FOR STUDENTS · GRADES 6 TO 12

App Design Workshop

IN PERSON · RUN WITH SCHOOLS

Students rebuild an app they love, learn how it works, and publish their own.

2 DAYS GRADES 6-9

College Portfolio Workshop

IN PERSON · RUN WITH SCHOOLS

Students choose their best work and publish a portfolio website for applications.

2 DAYS GRADES 10-12

Entrepreneurship & AI Intensive

IN PERSON · RUN WITH SCHOOLS

Teams choose a real problem, build a working product with AI tools, and pitch it.

5 DAYS GRADES 7-12

Year-Long Project Mentorship

HYBRID · FAMILIES ENROLL DIRECTLY

One project they choose, with 1:1 mentorship to build it, grow it, and show it.

6-12 MONTHS GRADES 7-12

FOR EDUCATORS

AI for Educators

Hands-on sessions where teachers build AI tools for their own classes, with their judgment in charge.

TEACHERS AT YOUR SCHOOL

FOR FAMILIES

Community Dialogues

A parent education series: coffees and talks on how AI is changing work, jobs, and college admissions.

PARENTS AT YOUR SCHOOL

COLLEGE & EARLY CAREER

AI Advantage Bootcamp

One week to launch a live product and leave ready to use AI at work.

7 DAYS GUANGZHOU, IN PERSON

WHAT WE'VE RUN Selected examples. Every program uses the AI tools each school approves.

HONG KONG · SUMMER 2025

Bodley Academy

- 20 students, five days
- 9.5/10 NPS · 20 students

Case: a ten-year-old launched a sign-language-to-speech app in five days.

BEIJING · SUMMER 2026

International School of Beijing

- A five-day cohort, grades 7 to 12
- Alumni continue in the Year-Long Project Mentorship

Demo day: judges from Harvard, Stanford, Y Combinator, and AI labs.

TSINGHUA UNIVERSITY

Schwarzman College staff

- Hands-on training for staff, built around their own work
- Their judgment stays in charge

Format: the same hands-on workshop as AI for Educators.

Bring Arena to your school.

Programs for schools run on your campus, planned with your team around your calendar, curriculum, and students. Your teachers keep the materials. Pricing is set with each school.
