ARENA SCHOOL

FOR TEACHERS AND SCHOOL LEADERS

Every teacher confident with AI, *inside your school's rules.*

Each teacher leaves a session with a working tool for their own class, built on your approved systems. From the team that trained staff at Schwarzman College, Tsinghua.

Demo day at the International School of Beijing, 2026

01 Why now

Teachers already use AI. Few have been trained.

53%

of English, math, and science teachers said they used AI for school in 2025, up more than 15 points in one to two years.

RAND, AI Use in Schools Is Quickly Increasing but Guidance Lags Behind, September 2025

1 in 2

U.S. districts had trained teachers on generative AI by fall 2024, double the year before. Many built the training themselves after struggling to find outside partners.

RAND, More Districts Are Training Teachers on Artificial Intelligence, April 2025

5.9 hours

a week saved, by their own estimate, among teachers who use AI at least weekly: about six weeks over a school year.

Gallup and Walton Family Foundation, survey of 2,232 U.S. public K-12 teachers, spring 2025

02 Five levels of AI fluency

A baseline, then every teacher moves up one level a term.

1. **Unaware**
2. **Curious**
3. **Practitioner**
4. **Designer**
5. **Builder**

ONE SESSION, ONE WORKING TOOL

1 Before

Each teacher brings one task from a class they teach now.

2 Show

We make one tool live from a plain-language description.

3 Make

Each teacher makes theirs on your approved tools and checks every result.

4 Keep

Teachers keep the tool and the prompt, to reuse and share.

03 Student data comes first

Before which tool, ask whose account it is.

Personal account

- ✕ Consumer terms
- ✕ No data agreement
- ✕ Not for student data

School-approved platform

- ✓ Enterprise agreement
- ✓ Agreed by the school
- ✓ Cleared for student data

- **Inside your approved platforms**
- **No student data in personal accounts**
- **Sample data for practice**
